Game Theme & Graphics

Fruit Shop™ has a timeless and classic theme that dates back to the original slot machines. The game offers excitement and thrills to players with some unique features that never fail to appeal.

- **Vibrant graphics.** Rich, colorful and refined graphics are perfectly suited to creating a warm, summer-time feeling.
- **Ultra-lightweight.** Fruit Shop™ achieves an incredibly small file size without sacrificing the sound and graphics quality standards NetEnt™ is known for.
- **Free Spins.** Free Spins are integrated into the main game with a seamless transition, creating a quicker pace for excitement seekers.

Main Game

Main Game

Fruit Shop™ is a fun and fruit-filled video slot from NetEnt™ with 5 reels and 15 fixed bet lines.

Wild substitutions. Wild symbols appear on reels 2, 3 and 4.

Big Win Presentation. All high wins in the game are followed by a special Big Win presentation.

Quick Spin. The length of game rounds can be shortened by checking this option in the Game Settings menu.

Wild Symbol

Wild Substitution

When the reels are spinning, players cannot miss the framed game logo on a yellow background which also acts as the Wild symbol.

Wild symbol substitutes for all symbols.

When completing a winning bet line, the Wild symbol is animated with a light pulsating animation.

All bet line wins with a Wild symbol pay double.

Free Spins

Free Spins

The pace and excitement of Free Spins is taken to new heights in Fruit Shop™.

Free Spins is triggered by any fruit symbol bet line win.

During Free Spins all bet line wins are x2, and bet line wins with Wild symbol are x4.

Any bet line win in Free Spins triggers additional Free Spins according to the payable. Free Spins continue as long as new bet line wins are generated.

Randomisation

RANDOM NUMBER GENERATOR (RNG)

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

ALGORITHM FOR A RANDOM REEL POSITION

A reel represents an array of symbols where each symbol has an index ("a position").

1. A random number between 0 (zero) and the length of the reel is acquired.
2. The random number is added to the game as "the new reel position to use".

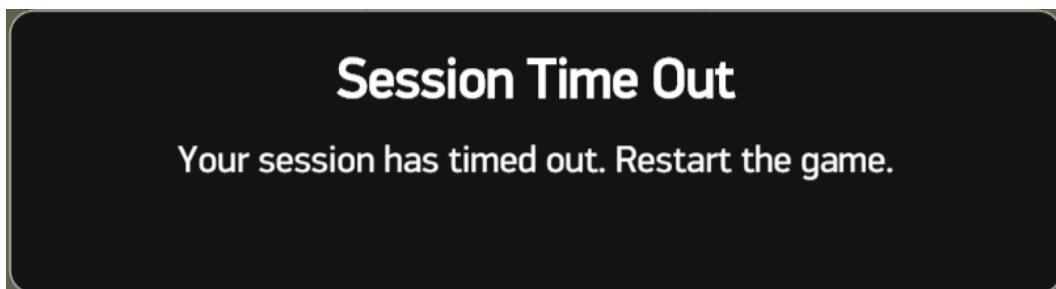

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

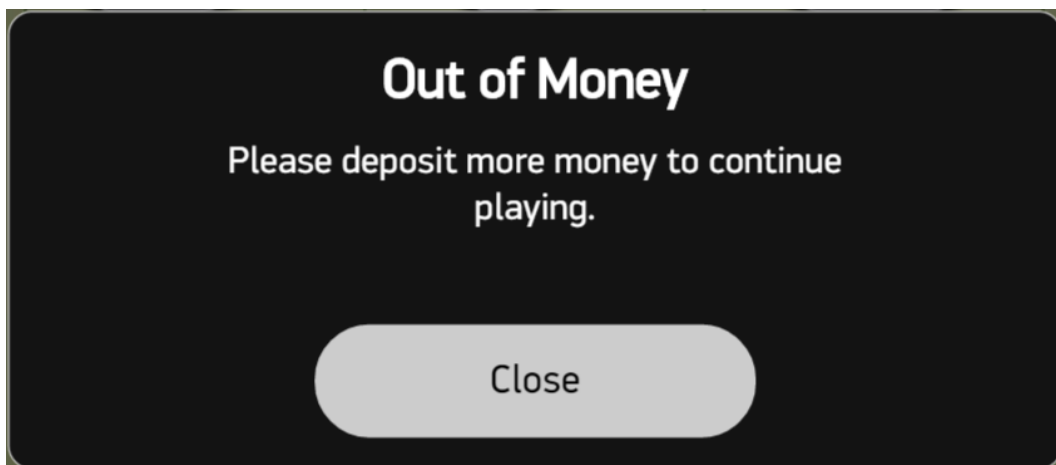

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
