Medium Win Symbol Animation

## Game Theme and Graphics

In our latest premium video slot, we tell the classic tale of Jack and the Beanstalk. From paper to 3D, Jack takes players on an adventure to the realms of giants and riches.

## Main Game

With a commitment to innovation as a driving force, NetEnt once again proves to be dedicated to consumer satisfaction. Jack and the Beanstalk Touch is certain to earn its place in the minds of any mobile video slot player who takes a spin on the reels of this 3D masterpiece.

- **Win Presentations.** Excitement takes on a whole new meaning in Jack and the Beanstalk Touch. With sounds and 3D animations, win anticipation in this game is above and beyond what one would expect from a video slot experience. All high win and medium win symbols animate on winning bet lines with a unique display for each symbol.
- **Re-Spin.** Players will be delighted to see that NetEnt has brought re-spin to the reels in this fun-filled mobile video slot. When any of the four featured Wild symbols appear on the reels, every subsequent spin is at no extra cost to the player until the Wild reaches reel one and disappears after the next re-spin. This amazing feature is what players are looking for in a game.
- **Reel Spin Suspense.** In this game NetEnt continues to use a near win reel spin to provide additional excitement, and heightened suspense and win anticipation.

Players can select the coin value and bet level before spinning the reels.

- **Game actions.** The buttons on the key pad perform the following different game actions:

BET LEVEL	Dragging or tapping the slider increases and decreases the bet level (i.e. number of coins per bet line) by 1.
	Tapping the Spin button starts a game round at the current bet level and coin value.
COIN VALUE	Dragging or tapping the slider increases and decreases the coin value to the next level.
AUTOPLAY	Tapping the Autoplay button starts a game round automatically. Sets 50 rounds by default.
	Tapping the plus sign on the Quick Settings Menu button, opens the quick settings menu. Player can choose to quick spin or start

	autoplay without going to the settings menu.

Big Win Presentation

## Big Win

The Big Win presentation in Jack and the Beanstalk Touch gives players a chance to see Jack at his happiest. Jack jumps up and cheers as the diamond appears above the stalk with a spectacle of lights and sounds.

Walking Wild Re-Spin in the Main game

## Walking Wilds

Satisfaction is guaranteed when a Wild hits the reels. In addition to the animations and sounds, wins with Wilds are tripled, giving a chance for massive wins. The sky is truly the limit in this all around fun-filled mobile video slot game.

**Main Game / Free Spins.** Walking Wilds in the main game and n Free Spins can appear on any of the reels and progressively move to the leftmost reel after each re-spin. After a re-spin on reel one, the Wild symbol disappears from the reels. This magnificent feature is sure to keep win anticipation at a heightened state, giving players a truly memorable time on the reels.

Free Spins Intro Screen

## Free Spins and Treasure Collection

The Treasure Collection feature in Free Spins is another reason that sets NetEnt apart from others in the industry. With plenty of chances of massive wins, Jack and the Beanstalk Touch offers players an online gaming experience that can only be found in one of NetEnt premium mobile video slots.

- **Treasure Collection Feature.** For every three Keys collected from the 5th reel, players notice that any Wild symbol appearing on the reels is transformed into one of the following Wilds:
- **Double Stacked Wild of two Money Bags.** Any wild appearing on the reels after 3 keys are collected, transform into a Double Stacked Wild.
- **Triple Stacked Wild of Three Golden Hens.** Jack isn't satisfied with only the money bags after he learns of the hen that lays golden eggs. Players can collect a total of 6 Keys and unlock the triple Stacked Wild.
- **Expanding Golden Harp Wild.** Above all Jack is after the walking golden harp. When a total of 9 Key symbols are collected the Expanding Golden Harp is unlocked.

	5 4 3	30 10 3			

**Randomisation**

**RANDOM NUMBER GENERATOR (RNG)**

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

**ALGORITHM FOR A RANDOM REEL POSITION**

A reel represents an array of symbols where each symbol has an index ("a position").

1. A random number between 0 (zero) and the length of the reel is acquired.
2. The random number is added to the game as "the new reel position to use".

**Malfunction Management**

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

Further information on management of malfunctions is also described in section 3.2.1 of the Gaming Platform (Progetto Della Piattaforma Di Gioco) document. This document provides details on how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

### Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
