

SUPER STRIKER TOUCH™

Game Type: Touch Game

Return to Player: 96.04%-96.93%

What a hit! Kick off the summer with Super Striker Touch™, the new 3-reel, 3-row video slot from NetEnt™, featuring multi-level Free Spins, the Golden Multiplier feature and the Bet Slip feature.

Striking a Golden Scatter in the main game awards an instant win, while a hat-trick of three Scatter symbols activates 5-level Free Spins with an increasing Level Multiplier. In Free Spins, players collect Golden Scatter symbols, with each adding to the total win and resetting the number of Free Spins. Collecting nine Golden Scatters lets the players advance to the next level - and the winners who qualify for the Free Spin finals are awarded with an x10 Level Multiplier! The Bet Slip in the form of a side bet adds that extra thrill of sports betting!

Let's get the ball rolling with Super Striker Touch™!

Free Spins

3 Football Scatter symbols, or 2 Football Scatter and one Golden Scatter symbol activate 3 Free Spins. There are 5 levels in Free Spins with an increasing Level Multiplier.

Only Golden Scatter symbols appear on the reels in Free Spins, each has an assigned Multiplier. These Multipliers are collected. At the end of each Free Spins level, the sum of all Multipliers is multiplied by the level Multiplier and the bet.

Each Golden Scatter landing on the reels resets the number of Free Spins to 3.

Golden Multiplier feature

A Golden Scatter landing on the reels in the main game awards a win of 10 or 20 times the bet.

Bet Slip

In the main game, the Bet Slip can be purchased. The Bet Slip tracks how many times a selected symbol appears on the reels during the selected number of spins, paying the multiplier times the bet.

Collecting symbols over 10, 25, 50 or 100 spins, players can win 1.8 to 815 times the bet!

ADDITIONAL INFORMATION

Randomisation

Random Number Generator (RNG)

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

(Italy jurisdiction only) Further information on management of malfunctions is also described in section 3.2.1 of the Gaming Platform (Progetto Della Piattaforma Di Gioco) document. This document provides details on how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
