

Spinsane™

Game Description

Wolves are prowling the casino, getting ready for the right moment... to spin! Spinsane™, the latest offering from NetEnt™, is a 5-reel, 3-row, 27-line video slot based on classic stepper mechanics. The look and feel of the game brings the ultimate slot machine experience. Suspense effects inject a serious dose of excitement into the game. The graphics are themed around wolves. Why? Because wolves are ice cold and smooth as hell, just like this slot.

Wild symbols, Scatter symbols, regular symbols, super symbols, and blank spaces can appear on the reels. For each winning bet line, super symbols can substitute for the regular symbols of the same kind to pay the highest possible winning combination. The game features Free Spins with one random Overlay Wild Reel for each spin. A simple, entertaining game, but with big payout potential: this slot has got some serious BITE.
